Mr. McDowell -

I received your email looking to do a die ownership transfer. Do you have the invoices for the dies you purchased?

Thank you-
Jenifer

comment: In 2012 I asked Eric Boyd of Northwest Territorial Mint to arrange to make 6 dies for 3 medals for the benefit of the San Francisco Fire Department. The original dies, made circa 1900, had been damaged. Because of the small run required for a medal of honor, Eric made it clear that I would pay to make the dies and would be the sole owner of the dies. NWT Mint would hold and store the dies, as a courtesy, at no cost, in the event of future orders. I was informed that I could pick up the dies at any time, as I was the owner of the dies. The original invoice number for making of the dies is 378576. The dies are as follows: Rainey Medal: #H 21 61 H 21 63, Sullivan Medal: #H 21 63 and H 21 64, Scannell Medal: H 21 65 and H 21 66. These dies are part of an important legacy of the SFFD and it is imperative that they be returned.

Mr. Haskin -

Unfortunately, I am not able to do anything with tooling and dies that were transferred to IRA Green. That would be something that IRA Green would have to handle. I am sorry that they are not being very helpful.

Good Luck -

comment: Denise, my die tool set for my military family medals were transferred, without my permission or consent, by the former owners of Graco when NWTM bought the company. I was in process of letting them know that I wanted the die tools back when I found out about the bankruptcy sale to Ira Green. The original owner of Graco (Samuel L. Graves) can also attest to the fact that I paid for the tools and that they are my property. I have contacted Ira Green but they won't confirm that have my tools and if they do, are refusing to return them. The medal design is copyrighted and I will be monitoring them but need some help getting these tools back into my possession. I am even willing to pay reasonable shipping costs to return them to my custody. You help is greatly appreciated.

Mr. Mellenbruch,

I have received your email requesting die ownership to be transferred from Northwest Territorial Mint to Kialara. I have found the artwork for your coin and would be happy to process this request. The court has determined that NWTMINT retained ownership of all NWTMINT dies created to produce coins, medallions or other products for customers. The court has approved the settlement for the ownership transfer in the amount of \$300.00 per die.

Your die numbers are,

N 2 84

M 7 28

M 7 29

N 1 20

I am available by phone, 775-461-7341, if you would like to make a payment using a debit/credit card, or you can send a check to the following address. Dies will be pulled and shipped once payment has been received.

Northwest Territorial Mint

comment: As you can see by the attachment, we ordered twice (2014 & 2016) from the same die. We paid \$550 for each die for a total of \$1100. It was our understanding that we purchased these. They would be stored at NWT Mint for future orders, such as our 2016 order, but they technically belong to us.

Please do not hesitate to reach out to me if you have any questions or need any additional information.

Thank you,

Subject: NWTM Die Request

Good Day,

I just received your Notice of Protocol letter regarding the Northwest Territorial Mint coin dies.

Since the die used for my coins was created long before my purchase, I do not believe I have any right to ownership of the die. Also, I do not have any real desire to purchase/obtain/store the die.

As stated in the letter, the intent is to sell the dies to a buyer capable of preserving the die and to produce coins. Therefore, I would like to know if it is possible to be informed who the particular die of interest was sold to so that I can contact them for future orders.

Thank you,
Marc Butler

comment: Denise, my die tool set for my military family medals were transferred, without my permission or consent, by the former owners of Graco when NWTM bought the company. I was in process of letting them know that I wanted the die tools back when I found out about the bankruptcy sale to Ira Green. The original owner of Graco (Samuel L. Graves) can also attest to the fact that I paid for the tools and that they are my property. I have contacted Ira Green but they won't confirm that have my tools and if they do, are refusing to return them. The medal design is copyrighted and I will be monitoring them but need some help getting these tools back into my possession. I am even willing to pay reasonable shipping costs to return them to my custody. Your help is greatly appreciated.

Good Morning Martin -

The production facility is located in Dayton Nevada, that is where all the dies and production is done. The dies would be shipped UPS Ground so a physical address would be needed. As far as the packaging, my office manager has been wrapping each die separately with foam pads and then boxes with foam popcorn. We have yet to have an issues with dies that have been sent.

Hello,

Thanks for your quick response regarding my three dies at NTM. Some questions before I call to arrange shipping details:

1. What would be your connection to the bankruptcy proceedings or trustee in this matter? I noticed the contact phone number listed is in Nevada, but the notification letter originated in Washington state.
2. Will my three dies be shipped via USPS to my PO box listed or will my physical location address be needed to send via either UPS or Fedex?
3. Will the dies be packaged to avoid damage in transit so I may have future coins/medallions struck from my dies as needed?

Thank you for your assistance with this.

Good morning Jenifer -

Thank you for your timely reply. I would like to make an offer in the amount of \$125.00 per die. Please understand my reasoning:

The customer orders these particular coins once every 10 years. There are only 2 awarded every year for the winners of the Member Par 3 Contest. If they order again, then it won't be until 2025. There are no assurances that the program will continue and I would certainly be taking a risk.

We work on a very thin margin with this client as their Merchandising team is razor sharp and very resourceful.

We could easily take an existing coin in stock and duplicate the mold with a different manufacturer. The latest technology is excellent.

I look forward to your response.

Sincerely,

If we do this in the USA (more cost but exceptional product) I can expect 1 week for art and at least 3 weeks for production. With the overseas factory (less cost and excellent product) expect 1 week for art and 4 weeks production.

Thanks,

Hello Baz,

Thank you for your inquiry with Northwest Territorial Mint (NWTM)! My name is Russ Wilson, in Custom Sales, with NWTM.

The approximate basic costs usually consist of \$7-8 per coin. We can make excellent products from our overseas mint that provides high quality at an economic price point and where tiny color details are exceptional, OR we can produce your project in our USA factory in Dayton, Nevada where our highly detailed dies and stamping process is above exceptional!

Any time we stamp something with metal we need to make dies. Die costs to produce specially made deep-relief dies for our overseas factory typically range from \$200-250 (depending on product and design detail) and USA made dies typically range from \$600-800 (depending on product and design detail). Dies are a ONE-TIME cost and once the dies are made, we maintain, clean, inspect, repair and replace them forever and any re-orders of the same design are only the price per unit to produce.

You can compare quality differences by browsing our online store at <https://store.nwtmint.com/> and note the "Made in the USA" stamp on many of our coin webpages. Our minimum order is 50 and shipping is free if you are paying with government funds. We have produced some awesome products and we have the best value since our prices are competitive but our quality is the best, bar none!

Baz, I gotta be honest and let you know that I'm not positive that we can have your coin rendered with art and produced by the end of the month. Typically it takes about a week to get art rendered and approved by you. The production times normally takes 5-6 weeks, but I can do a RUSH job and be successful in 3 weeks. The fastest I have had our overseas factory produce and deliver an item is 4 weeks, and the USA factory has done it in 3 weeks with simple designs. I can do this project for you, but I need art immediately from you and I think you might need to reconsider your delivery schedule. I want to do the project, but I also want to give you the straight scoop.

Thanks,

hi guys,

you did a job for me a few years ago, the quality was excellent and the turnaround time good, so i am here with another brief!

im looking to produce a run of 'silver dollars' for an american bar here in the UK (western themed, hence the dollar)

i'll need around x200, in silver finish, 2" diameter, milled edges and branding to both edges.

ideally we'd need them around the end of november... i know this is tight!

can you prepare some quotes for me please?

thanks

Baz
